CITIZENSHIP IN A GLOBALISED WORLD (Draft Version) by Bruno S. Frey\* (University of Zurich) Abstract States are ill equipped to meet the challenges of a globalised world. The concept of citizenship with its rights and obligations, including the allegiance owed, is too narrowly defined to exist only between individuals and a state.

While correlations between developed and emerging markets have increased, the process of integration of these markets into world markets is incomplete. To some degree, this accounts for the disparity between emerging equity market capitalization in investable world equity market benchmarks versus emerging market economies in the world economy.

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than World war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.

The news media today are full of references to "globalization" - the complex connections between different countries in the world and the way these increase over time. In fact this buzz word is so often used that it is danger of becoming a cliché. But what exactly is globalization? What are its main driving forces? Does it embrace increasing aspects of our lives, from economics to cultural ...
