It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

### Study Guide Template Microsoft Word

Launch Microsoft Word and select "Blank Document" from the template chooser. Type the name of the class, section, or something else that denotes the study topic at the top of the page. Throughout the document, make your headings larger by highlighting the text and then selecting a number larger than "12" from the Font Size drop-down menu.

### How to Make a Study Guide on Microsoft Word | Synonym

Microsoft Word is a word processor used to simulate a typewriter in the digital era. We can start working with documents in two ways: a blank document or a template. If we start with a blank document, we will get an empty sheet of paper and we can just start doing our own typing.
